Solutions for **Pools & Spa**

Your Choice,
Our Commitment

A close-up photograph of water cascading from a curved metal pipe into a swimming pool. The water is clear and blue, creating a dynamic, flowing effect. The background shows a clear blue sky and the edge of the pool's tiled deck.

A Worldwide Group at your service

Globally Present, Locally Active

Our Global presence ensures that we can support our Customers wherever they are. Supported by teams in over 20 countries, as well as by our accredited Partner Distributor network, we ensure professional, local customer support in over 120 countries, with the added benefit of rapid delivery of goods to meet your needs.

All this backed up and supported by a world-class team of Technical Customer Service, able to provide all the back up or technical support needed. With ISO certificated production sites in Europe, the Americas and Asia, we are close to our customers and fully compliant with all local norms both in terms of our product designs as much as our production facilities.

How SEKO works for You

From the spark of an idea, through to the delivery of a solution, SEKO is with you all the way

SEKO supports its customers in every phase of a project, from the inception of an idea or request, through design and testing to launch and installation. Our in-house research, design and development teams work closely with the local teams, drawing on customer and market inputs. Then using state-of-the-art technologies to optimize costs and using our own specifically designed test benches to ensure rigorous, robust testing, we ensure a quality solution is delivered quickly to market.

No matter which processes and applications are planned SEKO has a solution in the cleaning and hygiene of kitchens and laundries and surfaces of all types in applications like **Offices and Restaurants, Hospitals and Hotels, Retailers and Schools, Car Washes and Swimming Pools, Cooling Towers, Energy, Food & Beverage, Water & Gas Utilities Potable and Waste Water Treatment.**

1 Partnership Philosophy

Being a privately-owned business means that we are here for the long term and can plan projects with and for our Customers, where both parties benefit. It means we can rapidly take decisions to invest our resources to ensure our optimum solutions are delivered.

2 Your Business, Our Solutions

Our extensive product range represents a unique combination of design, development and implementation know how. With a wide and ever evolving range of products and ancillaries, we can offer specific and comprehensive solutions for a variety of industrial applications. Our solutions are conceived to fit seamlessly into your operation, optimizing the processes and applications

3 Uniquely Positioned

SEKO's 3 business units, Cleaning & Hygiene, Water & Industry and Industrial Processes puts us in a unique position to be able to respond to the widest range of business needs, with a broad range that allows you the Customer to deal with just one company, simple.

Pools & Spa

An ever-evolving set of solutions for pristine pools

SEKO has been at the forefront of developing solutions for both residential and professional swimming pools for many years and has always delivered the most efficient, practical and complete solutions for the reseller or for the installer.

SEKO's design and manufacturing processes ensure all our solutions and systems deliver:

Precision and Consistency

Ensuring that water quality is always at its best, balancing the variables that impact it, demands measuring and dosing systems with the highest accuracy and built with precision in mind, that can function in both indoor and outdoor environments. Parameters measured include: pH, ORP, Conductivity, Chlorine, Oxygen, Turbidity, Peracetic Acid, Ozone, Bromine, Peroxide and Flow rate.

Safety and Reliability

The safety of customers, installers and operators is paramount, requiring the very best in terms of design and features. From the IP65 class enclosures of our dosing systems and controllers through to the precise choice of materials used to ensure full chemical compatibility over time, safety is at the forefront of our design ethos. Reliability drives good safety, and all SEKO's products are fully tested prior to leaving our warehouse.

Ease of Use and Installation

As a Global company, SEKO is attuned to the differing needs of individual markets. When we design a new product, we ensure that installation is simple, we use uniform programming language solutions, that are intuitive and easy to understand and which on our Controllers is also available in multiple languages. From our plug and play residential systems, through to our complex professional systems for Water parks, these characteristics are always present.

Operational Efficiency

From the domestic pool to the largest water parks, the costs of running a pool require close management, and for the larger public pools and water parks the question of water quality, and clarity of appearance become more critical from a brand safety and image point of view. Our SEKONet system offers significant benefits for larger water parks being able to monitor and control up to 99 controllers, giving peace of mind and outstanding operational benefits. From the simple plug and play residential product range, through to our Professional ranges and our Custom build options, SEKO has the range of pumps and controllers that will keep a pool crystal clean.

Control and dosing systems

Peristaltic or solenoid driven dosing systems with built in controllers for single, double or multi parameter measurement

Combined systems with peristaltic pumps, solenoid driven dosing pumps and controller. to automatically measure and verify the values of the pool water. The units for residential applications have been designed so they do not require the presence of technical personnel.

- Peristaltic dosing pumps with 2 or 3 PVDF rollers and Santoprene or SekoExtra tubing
- Easy and advanced parameter setting
- Proportional dosing TWM (Time With Modulation) or FWM (Frequency With Modulation)
- Calibration process uses high quality pH and ORP probes
- Extra dosing available thanks to pH and chlorine relay
- Amperometric sensor measures chlorine PPM
- Circulation and boiler controller
- Installation kit included
- No technical skill required
- Remote alarm relay
- Circulation pump checks "Power On" flow trigger
- Input level probe checks product levels
- Multi language menu

SINGLE PUMP FOR PH OR ORP MEASUREMENT

SEKO's principal offering for the residential pool market provides a user-friendly combination of products consisting of controllers and integrated proportional dosing pumps, the end user can adjust pH and chlorine values as required.

PoolKronos single peristaltic dosing systems with a stepper motor pump and 3 PVDF rollers using built in controllers for pH/ORP measurement.

Basic combined system with a peristaltic pump and either automatic proportional or timed dosing to adjust key chemical parameters.

PoolBasic user-friendly analogue or digital combined system with a peristaltic pump and single measurement with automatic proportional dosing.

Kontrol Invikta user-friendly solution combining a solenoid driven pump and single measurement with automatic proportional dosing.

TWO DOSING PUMPS FOR MULTI-PARAMETER MEASUREMENT

SEKO has developed new advanced combined systems for the hotel and spa markets, featuring amperometric chlorine measurements which ensure full compliance with most local legislation.

Kontrol Invikta Double combines two solenoid driven pumps with a multi measurement capability and an automatic proportional dosing.

TWO OR THREE DOSING PUMPS FOR MULTI-PARAMETER MEASUREMENT

SEKO's double or triple pump systems featuring amperometric chlorine measurements and an innovative system to control circulation pumps and boilers for hotel swimming pools and spas that fully complies with legislation.

PoolBasic Pro combines two or three peristaltic pumps and a multi measurement capability with automatic proportional dosing.

Kommander advanced combined system with two or three peristaltic pumps with either automatic proportional or timed dosing that adjusts chemical parameters and which comes with built-in functions that enable weekly timed management of the circulation pump and a temperature sensor for boiler activation using a relay.

INSTALLATION KIT INCLUDED

- pH and ORP probes, amperometric chlorine cell
- By-pass and pressurized probe holder
- pH and ORP buffer solutions
- Piping DN50

- Brass brush
- 5" with 80 µm cartridge
- Ceramic foot filter and FPM non return valve
- 4x6 and 8x12 PVC and PE tubes

PoolKronos 10

PoolKronos 10 is a peristaltic dosing system using **built in controllers for pH/ORP** measurement designed specifically for Swimming Pool applications and offers flexibility of installation, user-friendliness in programming and a constant chemical dosing by pH or ORP analysis.

POOLKRONOS 10

- for pH (6.6 – 8.0)
- for ORP (600 – 1000 mV)

CONSTANT DOSING PUMP

Flow rate 1.5 l/h ; Pressure 1.5 bar

POOL SIZE Indoor 1 – 130 m³ ; Outdoor 1 – 110 m³

MAIN BOARD

Display LCD 7 segment

Power supply with galvanised electrical insulation
100 – 240 Vac 50/60Hz

IP65 ENCLOSURE

Dimensions 204 x 76 x 124 mm

Material PP with fiber glass

PoolKronos 20

PoolKronos 20 builds on the PoolKronos 10 peristaltic system. Designed specifically for Swimming Pool applications, it also uses **built in controllers for pH/ORP analysis** and offers installation flexibility, user-friendly programming and proportional chemical dosing using pH or ORP analysis. The PoolKronos 20 has an **improved LCD display** for ease of reading measurements.

POOLKRONOS 20

- for pH (4 – 10)
- for ORP (450 – 900 mV)

PROPORTIONAL DOSING PUMP

Flow rate 1.5 l/h ; Pressure 1.5 bar

POOL SIZE Indoor 1 – 130 m³ ; Outdoor 1 – 110 m³

MAIN BOARD

Display LCD 8 letters x 2 lines

Power supply with galvanised electrical insulation
220 Vac 50 Hz cord cable

IP65 ENCLOSURE

Dimensions 204 x 76 x 124 mm

Material PP with fiber glass

PoolKronos 50

PoolKronos 50 has the broadest range of measurement of the PoolKronos range coming with a **bigger 16 letter LCD display**. As with the rest of the PoolKronos products, it uses **built in controllers for pH/ORP analysis**. Similarly it is extremely flexible in terms of installation, user-friendly for programming and offers proportional chemical dosing by pH or ORP analysis.

POOLKRONOS 50

- for pH (0 – 14)
- for ORP (0 – 2000 mV)

PROPORTIONAL DOSING PUMP with Stepper Motor pump ; Flow rate 2 l/h ; Pressure 3 bar

POOL SIZE Indoor 1 – 140 m³; Outdoor 1 – 120 m³

MAIN BOARD

Basic Series

The Basic Series, despite its name, offers an advanced combined system with a **peristaltic dosing pump and either automatic proportional or timed dosing** to adjust key chemical parameters in domestic, above ground pools and spa.

BASIC

- PRO Input 4÷20mA or frequency pulse
- TIME by weekly timer built in

DOSING PUMP

Flow rate 25 – 9750 ml/h ; Pressure 1.5 bar

POOL SIZE Indoor 5 – 130 m³; Outdoor 5 – 110 m³

PoolBasic LED

PoolBasic LED is a user-friendly **analogue combined system with a peristaltic dosing pump and single measurement with automatic proportional dosing** that enables chemical adjustment for above ground pools.

POOLBASIC LED

- for pH (6.2 – 8.2)
- for ORP (480 – 750 mV / 660 – 930 mV)

PROPORTIONAL DOSING PUMP

Flow rate 1.5 or 5 l/h ; Pressure 1.5 bar

POOL SIZE Indoor 5 – 130 m³ ; Outdoor 5 – 110 m³

PoolBasic Plus

PoolBasic Plus delivers a user-friendly solution combining a **peristaltic dosing pump and single measurement with automatic proportional dosing** that adjusts the chemical parameters for above ground pools.

POOLBASIC PLUS

- for pH (0 – 14)
- for ORP (0 – 1000 mV)
- for ORP with shuko (0 – 1000 mV)

PROPORTIONAL DOSING PUMP

Flow rate 1.5 or 5 l/h ; Pressure 1.5 bar

Kontrol Invikta

Like PoolBasic Plus, Kontrol Invikta delivers a user friendly solution combining a **solenoid driven dosing pump and single measurement** with **automatic proportional dosing** but for larger volume above ground, indoor and outdoor pools.

KONTROL INVIKTA

- for pH (0 – 14)
- for ORP (0 – 1000 mV)

SOLENOID DRIVEN DOSING PUMP

Proportional dosing FWM

(Frequency With Modulation)

Flow rate 5 l/h ; Pressure 5 bar

Kontrol Invikta Double

Designed for larger pools, Kontrol Invikta combines **two solenoid driven dosing pumps** with a **multi measurement capability** and an **automatic proportional dosing system** to deliver balanced chemical parameters for above ground and indoor and outdoor pools.

KONTROL INVIKTA DOUBLE

- for pH (0 – 14) and ORP (0 – 1000 mV)
- for pH (0 – 14) and ORP (0 – 1000 mV) and **Free chlorine** (0 – 5 ppm with amperometric probe)

PoolBasic Pro

Offering the fullest range of possible measurements, the PoolBasic Pro range still offers a user-friendly solution. It **combines two peristaltic dosing pumps** and a **multi measurement capability** with **automatic proportional dosing** designed for above ground, indoor and outdoor pools. PoolBasic Pro is also available with a **3 pump configuration**.

POOLBASIC PRO 2 PUMP VERSION

- for pH (0 – 14) and ORP (0 – 1000 mV)

Kommander

Kommander is an advanced combined system available with **two or three peristaltic pumps** with **either automatic proportional or timed dosing** that adjusts chemical parameters for both outdoor pools and spa centers. Furthermore, the Kommander comes with additional functions built in. The first is a **weekly timer to regulate the circulation pump** and the second is a **temperature sensor that activates the boiler using a relay switch**.

KOMMANDER 2 PUMP VERSION

- for pH (0 – 14) and ORP (0 – 1000 mV)

KOMMANDER 3 PUMP VERSION

- for pH (0 – 14), ORP (0 – 1000 mV) and Flocculant dosage

PROPORTIONAL DOSING PUMPS

Pre-assembled panel-mounted

The pre-assembled panels of SEKO's range offer advanced solutions for residential swimming pools. A flexible system for quick installation, that combines a pre-selected number of products assembled on a small panel, including a by-pass probe holder, electrical box and controller unit.

- Advanced parameter setting
- Proportional dosing TWM (Time With Modulation) or FWM (Frequency With Modulation)
- Calibration process uses high quality pH and ORP probes
- Extra dosing available thanks to pH and chlorine relay
- Installation kit included
- Amperometric sensor measures chlorine PPM
- No technical skill required
- Remote alarm relay
- Circulation pump checks power on "Flow Trigger"
- Input level probe checks product levels
- Multi language menu
- Circulation and boiler controller

Photometer

The main solution for professional swimming pools, Photometer is a complete controller that checks free, total and combined chlorine in the water. Thanks to its use of the DPD analysis method, it ensures a perfect results every time.

- Professional parameter setting
- Proportional dosing
- Calibration process uses high quality pH and ORP probes
- Extra dosing available thanks to pH and chlorine relay
- Installation kit included
- DPD analysis method measures Chlorine PPM
- Technical skill required

HYDRAULIC PROBE HOLDERS

Features a new hydraulic device that comes with a water drain dedicated to chemical reagents that are used during chlorine measuring. This allows a reduction in the amount of water used for chlorine measurement.

The water that is used for the pH and ORP probes can be returned to the compensation basin, while only the water containing chemical DPD reagent will be discharged into special tanks ensuring compliance with local laws. Fast installation comes thanks to quick couplings for water Inlet and outlet fixings.

The optical unit assures a very high accuracy level of chlorine measurement with a 520 nm sensor and LED light device. All Photometer use DPD powder for dilution prior to use that offers a reliable solution at each application.

Kontrol Guard Tech

The Kontrol Guard Tech is the most advanced model in the SEKO range of controllers. The new Kontrol Guard Tech unit, with its 5" digital graphic display, combines the traditional elements of control and dispensing with a totally digital control system, which facilitates the setting and monitoring of various parameters, depending on the application, using and comparing historic values to identify or analyze any errors.

- New box design, with increased instrument protection
- Graphic display 5" (240x128 pixel) for easier reading
- Control unit with full parameter access for complete monitoring
- Communication via Serial Port RS485 by MODBUS RTU/ASCII protocol for remote control interface
- Easy to set parameters for quick technical overview
- Multiple language menu for flexible operator interface
- Control unit has galvanized electrical and measuring insulation to ensure reliable performance
- CE/UL compliant to ensure full health and safety compliance

INTUITIVE ICONS AND CLEAR DISPLAY

Thanks to the high contrast image of the graphic display, and the easy to read and self explanatory icons that are used, the operator is guided step by step through the applications.

To improve the display legibility, the control unit has multiple screen settings available. The corresponding variable display backlighting allows the user to quickly understand which operating mode the device is currently operating.

Kontrol Tekna panels

Kontrol Tekna panels benefit from the robust Tekna range of pumps, offering the professional pool operator peace of mind and a completeness of range.

- Professional parameter setting
- Proportional dosing
- Calibration process uses high quality pH and ORP probes
- Extra dosing available thanks to pH and chlorine relay
- Installation kit included
- Technical skill required
- Remote alarm relay
- Multi language menu
- Potentiostatic measurement of chlorine PPM value

TEKNA FEATURES

Compatible

The PVDF pump head that comes as standard offers complete compatibility for almost all chemicals that may be used in swimming pool water treatment. The ceramic ball valve which also comes as standard improves the pumping reliability and the chemical compatibility of the whole liquid end.

Reliable

Advanced design and manufacturing processes allows SEKO's diaphragm to have a unique life expectancy. Made of pure solid PTFE, the diaphragm is compatible with most chemicals and has been rigorously tested allowing SEKO to guarantee its diaphragms for 5 years that means routine diaphragm replacement is no longer needed.

Your Choice, Our Commitment

People choose to do business with SEKO for one or more reasons, but ultimately it is their choice, and therefore they merit our commitment. "Our commitment" is total and not only to our customers, but also to each other and the Company's to its employees.

Vision

**TO BE YOUR PARTNER OF CHOICE FOR
DOSING SOLUTIONS, GLOBALLY**

SEKO, is a passionate, dedicated Global Family of Professionals. We listen to each of our Partners and are committed to deliver the right solution in the Hygiene, Water Treatment and Industrial Process markets.

Values

**MUTUAL RESPECT, QUALITY AND
SPIRIT OF COLLABORATION**

MUTUAL RESPECT

Mutual Respect because doing business is about being able to generate trust between Customer and Supplier. We'll deliver against our commitments, on time and in a transparent fashion, so you know can plan for your own business needs.

QUALITY

Quality for SEKO is a 360° reality. It covers not only the design, development, production and delivery of our products and solutions but it runs through the core professionalism of our teams.
