SekureDose

Simple and safe chemical dosing

SekureDose is the ideal "turn-key" solution for filling spray bottles or buckets to wash floors, counter tops or other hard washable surfaces and for sink filling for pot and pan washing. SekureDose is quick to install and comes with an easy to maintain manual pump mechanism built into a robust, easy to clean chemical cabinet.

As with all SEKO equipment, it offers practically tool free installation – quick and simple using the SEKO wall bracket system. As with the SekureMax and ProMax systems, SekureDose offers outstanding space for personalized branding or customisations communication without costly printing minimums and set up charges.

Features

Lock out mechanism to avoid over consumption

Robust ABS lockable cabinet includes the dispenser and variable sizes of chemical packaging

System can be extended using additional units for multiple product dosing

Flexible shockproof spout

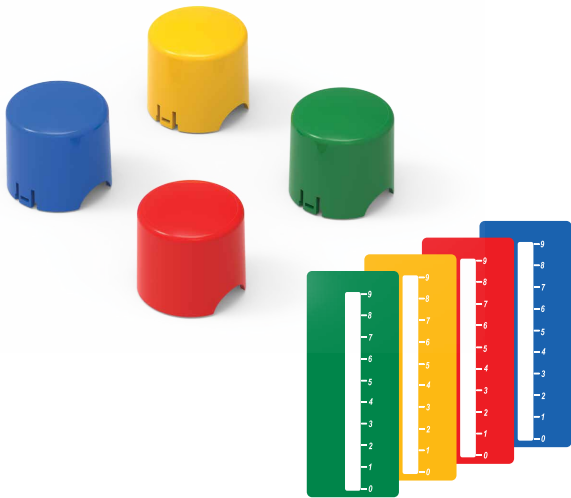

Variable stroke rates available through pin selection

No contact between the spring and chemical. Available as standard with EPDM seal: optionally available with FPM or Silicone.

Three versions available: sink, bucket and bottle filling – with variable height bottle tray.

Custom solutions

- Possibility to lock the cabinet either with a revolving plug or with a plastic key
- Wide customization capacity: coloured caps and custom labels to make SekureDose even easier and intuitive for the end user

Easy modular tube stiffener

Ensures the feed tube pulls from the bottom of the chemical container minimising waste and delivery issues.

Improved check valves

- Easy maintenance: unscrew the locknut, remove the fitting, replace the valve
- Double O-ring seals
- Valves are the same for top and bottom side

Easy installation

Just fix to the wall, insert the chemical container and start to use.

Fast stroke regulation

The large cap provides easy access to the stroke regulating pins whilst remaining secure during use

6 different dosage settings

ranging from 5 - 30cc (1/5 - 1oz) per stroke
